Wednesday 24 April

The challenges of maintaining Brunel’s railway in the 21st century

A talk by Craig Hocking, Infrastructure Maintenance Engineer, Network Rail

Network Rail Maintenance teams have a lot to contend with sustaining operations on today’s railway, none more so than those working for the Delivery Unit at Plymouth. Craig Hocking will describe the challenges faced by the maintenance teams in the south west dealing with weather, structures, geometry and rails.

Meeting venue: Engine Room, Atkins, 5th Floor Milford House, 1 Milford Street, Swindon, SN1 1DW

Meeting time: 12:30 for a prompt 12:45 start to 14:00

Wednesday 22 May

PWI London Technical Seminar
Understanding Asset Life: How can we improve?

The seminar will cover the key stages and processes involved in understanding asset life with certainty and the support necessary for making the right decisions for ongoing maintenance and renewal.

PWI Track Engineering Diploma

The aim of the programme is to give delegates an understanding of the principles of the theory and practice of track engineering in the UK.

It is comprised of three consecutive modules and involves 100 hours of taught study all mapped to HE Level 6. Upon successful completion of all three modular assessments, candidates will be awarded the PWI Diploma in Track Engineering.

These courses are aimed at newly qualified and experienced engineers and will give delegates the knowledge and skills needed for professionals in track engineering.
